Mission Statement:

We recognize that our number one priority is to ensure that every Title XI Soldier has a working laptop, Internet connection and any support they need to perform their mission at the highest level!

Laptops:

Laptops will be provided to each Title XI Soldier who requires one. Accountability and Life Cycle Management will be managed by the TASSD IMO. Life cycle for each laptop is approximately 3 years. At that time they will be replaced with a newer model. Software upgrades will be conducted yearly at National Title XI workshops. A representative can be made available to provide Information Technology (IT) support at other conferences throughout the year upon request.

The IMO will provide technical support for any hardware or software issue. The laptop will be shipped to our office if the problem cannot be fixed via phone. Policy is that the Title XI's organization pays to ship the laptop and the IMO pays to ship it back. ***All data must be backed up before the laptop is sent. Or, it must be located in the My Documents folder!***
